At the Hijabi mentorship Program, we mainly focus on women, youth and children."

## **2. What is Gender based Violence?**

"Gender-based violence is a phenomenon deeply rooted in gender inequality, and continues to be one of the most notable human rights violations within all societies. Gender-based violence therefore, is violence directed against a person because of their gender. Both women and men experience gender-based violence but the majority of victims are women and girls."

## **3. What is the role of a Professional Mediator?**

"Mediation is generally defined as the process by which neutral third party, generally a person who is not directly involved in the dispute or the substantive issues in question tries to end a disagreement by helping the parties to talk about and agree on a solution. The acceptable third party has no authoritative decision-making power but rather assists the involved parties to voluntarily reach a mutually acceptable settlement of the issues in dispute. In addition to addressing substantive issues, mediation may also establish or strengthen relationships of trust and respect between the parties or terminate relationships in a manner that minimizes emotional cost and psychological harm."

## **4. What is your message to the Youth?**

"While there are a lot of challenges facing the youth today, I want to encourage each one of us to keep going in. Remain focused on your goals and widen your scope.
